

Mt. Ephraim Avenue Roadway Safety Improvement Study

PUBLIC INFORMATION CENTER

Camden County, in cooperation with the Delaware Valley Regional Planning Commission, is developing a variety of alternatives that will best improve pedestrian safety and reduce traffic incidents along the Mt. Ephraim Avenue corridor. Please join the Project Team for an information session to learn more about the project, and provide your local input and knowledge on what problems exist today that could help in developing solutions to improve corridor safety.

THIS IS A GREAT OPPORTUNITY TO ASK QUESTIONS:

- What is the project?
- Where are the problem areas?
- What is the impact to the neighborhood?
- How do I participate?

Learn more about the project by interacting with the Project Team and viewing the numerous information boards that are on hand.

WEDNESDAY
MAY 24TH, 2017
6:00 PM – 8:00 PM

Virtua (Kelly Conference Room)
1000 Atlantic Ave | Camden, NJ 08104

Free parking available at Virtua (see above), entering from Mt. Ephraim Ave. Follow signs that read: **Kyle Will Family Health Center**. Do not use the Emergency Room entrance parking lot.
