Department of Public Works

Engineering Inspection and
Construction Management Services

Replacement of Broadway (CR 551) Bridge over Little Timber Creek (Structure No. 45A010)
Borough of Brooklawn
County of Camden, New Jersey
Weekly progress Report
7-21-2014 to 7-25-2014

The following Construction Activities took place during the above period.

1. Mugrose crew members chipped down and excavated the south abutment and wing wall. The crew then began foundation excavation behind the abutment wall. Excavation was performed from elevation +3.0 down to approximately elevation -6.0. Walers and bracing were constructed at approximately elevation -4.0. The crew continued to take measures to repair leaks in the cofferdam system.

2. Roadway Construction Stage – Phase 3 & 3A.

3. Traffic Safety:
   Motorist and pedestrians were traversing safely through the project site. No additional measures were required to enhance traffic or pedestrian safety.

4. Project Meetings:
   Next Bi-Weekly Progress meeting is scheduled for August 1, 2014.

5. Utility:
   No utility work during this period.
