

Camden County 2017 Highway Master Plan Update

This update is an amendment to the plan adopted in October 2014 adding additional information to the Recommendations section of Chapter 7. Additions include a comprehensive approach for the continued maintenance of each segment of the County Highway Network focusing on corridor-wide and intersection improvements which will improve level of service, traffic signal timing, turning movements, overall safety for non-motorized and motorized users, complete streets investigations, ADA compliance and improved air quality.

Making It Better, Together.

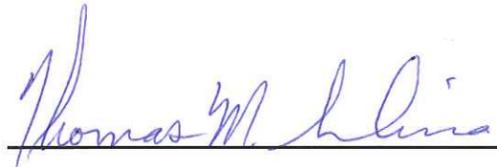

Camden County 2017 Highway Master Plan Update approved by Camden County Planning Board on May 23rd, 2017

County Route Number	Limits	Local Name	Municipality	Functional Class	Recommendations - Camden County Highway Plan	
534	Co line - NJ 168 (0.41)	Church St	Gloucester	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
534	NJ 168 - NJ 42 (0.61)	Blackwood-Clementon Rd	Gloucester	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
534	NJ 42 - CR 673 (1.70)	Blackwood-Clementon Rd	Gloucester	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
534	CR 673 - CR 683 (1.63)	Blackwood-Clementon Rd	Lindenwold/Pine Hill/Clementon	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
534	CR 683 - US 30 (3.13)	Clementon-Berlin Rd	Clementon/Berlin Boro	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
534	US 30 - CR 714 (5.37)	Jackson Rd	Berlin/Waterford	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
534	CR 714 - Co line (1.75)	Jackson Rd	Waterford	Major Collector	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
536	Co line - NJ 73 (2.79)	Cedarbrook-New Brooklyn Rd	Winslow	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
536	NJ 73 - US 30 (2.23)	Waterford Rd	Winslow	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
536	US 30 - CR 716 (0.53)	Chew Rd	Winslow	Major Collector	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
536	CR 716 - Co line (4.58)	Chew Rd	Waterford	Major Collector	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
536 Spur	Co line - AC Expy (0.33)	Williamstown-New Freedom Road	Winslow	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
536 Spur	AC Expy - CR 561 (5.29)	Williamstown-New Freedom Road	Winslow	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
536 Spur	CR 561 - CR 534 (1.31)	Taunton Rd	Winslow/Waterford	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
536 Spur	CR 534 - Co Line (0.46)	Taunton Rd	Berlin/Waterford	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
537	CR 737 - CR 537 Spur (1.12)	Federal Street	Camden	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
537	CR 537 Spur - CR 601 (0.78)	Federal Street	Camden	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
537	CR 601 - CR 644 (3.42)	Federal Street	Camden	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	
537	CR 644 - Co line (3.44)	Moorestown Pk	Camden	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.	

County Route Number	Limits	Local Name	Municipality	Functional Class	Recommendations - Camden County Highway Plan
543	Co line - CR 612 (2.91)	River Road	Pennsauken/Camden	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
543	CR 612 - CR 537 (2.39)	River Road	Camden	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
544	NJ 41 - CR 561 (5.24)	Evesham Road	Runnemede/Magnolia/Somerdale	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
544	CR 561 - Co line (3.44)	Evesham Road	Cherry Hill/Voorhees	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
551	Franklin Br - Morgan Blvd (2.41)	Broadway	Camden	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
551	Morgan Blvd - US 130 (2.52)	Broadway	Camden/Gloucester City	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	CR 537 - CR 605 (0.66)	Haddon Avenue	Camden	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	CR 605 - CR 573 (5.15)	Haddon Avenue	Camden/Collingswood/Haddon/Haddonfield	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	CR 573 - CR 671 (0.47)	Haddonfield-Berlin Rd	Haddonfield	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	CR 671 - NJ TPK (1.38)	Haddonfield-Berlin Rd	Cherry Hill	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	NJ TPK - CR 544 (1.66)	Haddonfield-Berlin Rd	Cherry Hill	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	CR 544 - CR 673 (0.56)	Haddonfield-Berlin Rd	Voorhees	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	CR 673 - CR 561A (0.71)	Haddonfield-Berlin Rd	Voorhees	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	CR 561A - US 30 (4.11)	Haddonfield-Berlin Rd	Voorhees/Gibbsboro/Berlin Twp/Berlin Boro	Principal Arterial-Other	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	US 30 - NJ 73 (3.35)	Cedarbrook Rd	Berlin/Winslow	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561	NJ 73 - Co line (3.88)	Cedarbrook Rd	Winslow	Major Collector	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561 A	CR 561 - Gibb. B. L. (0.15)	Haddon Avenue	Voorhees	Major Collector	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561 B	CR 684 - CR 699 (0.16)	Foster Avenue	Gibbsboro	Local	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561 C	CR 536 - NJ 73 (0.58)	South Cedarbrook Rd	Camden	Local	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
561 D	CR 699 - CR 561 (0.57)	Berlin Avenue	Haddon Heights	Local	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.

	County Route Number	Limits	Local Name	Municipality	Functional Class	Recommendations - Camden County Highway Plan
	573	CR 665 - CR 551 Spur (0.83)	Clements Bridge Rd	Barrington, Haddonfield	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
	573	CR 168 - CR 665 (2.88)	Clements Bridge Rd	Runnemede, Barrington, Haddon Heights	Minor Arterial	Corridor-wide intersection improvements focused on improving level of service, turning lanes and turning lane width, over all safety for motorized and nonmotorized users, complete streets investigation and improved air quality.
