WANT TO PROTECT YOUR FAMILY & FRIENDS?

Download COVID Alert NJ

COVID Alert NJ is a free and secure exposure notification app.

HERE'S HOW IT WORKS:

#1

Download COVID Alert NJ on the App Store or Google Play Store. Opt-in to receive **"Exposure Notifications"**
#2

As you go about your day, the app will use Bluetooth to sense any **"close contacts"**—other app users who are within 6 feet of you for more than 10 minutes

#3

When your app senses a close contact, your phone will **exchange a secure random code** with the close contact's phone. It's important to note that your location and name are never disclosed

#4

If you test **positive for COVID-19**, a public health representative will call you and ask if you're willing to **anonymously notify your "close contacts"** by uploading your app's close contact codes

#5

Each day, the app will compare your list of close contact codes to the list of codes associated with positive COVID-19 app users. **If there's a match you will get an Exposure Alert**, along with appropriate next steps

The app will never record any identifying data.

All users will remain anonymous.
